Summary

Experienced React Developer with a demonstrated history of working in the IT industry for over 5 years. Have hands on experience in designing, developing, implementing applications and solutions using a wide range of technologies and programming languages. Have experience creating reuse able components for a library. Seeking to leverage broad development experience and hands-on technical expertise in a challenging role as a React Developer.

Skills & Abilities

- React Js
- Java Script
- HTML5&CSS
- Customized components for library
- Nodejs
- GraphQL
- Express
- Next Js

Key Responsibilities

- Development of key modules for any assigned ongoing project.
- Creating customized components for library.
- Handling key external integrations, handling client interactions to understand requirements.
- Provide creative solutions to complex problems.
- Understanding overall architecture from frontend to backend along with hosting.

Experience

REACT DEVELOPER | LAMINAAR AVIATION INFOTECH | MAY 2022 - PRESENT

- An active resource in developing customized, reusable component controls for a library (arms_v2.8_webui) by using MUI components.
- One of the resources in developing customized Gantt chat library.
- By using react-data-grid library, which was in typescript, converted it into JavaScript and made it more customized and added additional features.
- Used axios for APIs to load data from server.
- Designing and coding application components in Agile environment utilizing a test-driven development approach.

SENIOR SOFTWARE ENGINEER | MINDTREE LTD | JUNE 2019 – MAY 2022

· Joined Mindtree as a fresher and quickly gained knowledge of the project domain and architecture. Worked as a lead developer for a milestone project for a well known CMT account of Mindtree. Designing and coding application components in Agile environment utilizing a test-driven development approach.
· Developed react web applications to analyze and process data for different clients.
· Providing development estimates, identifying potential problems and recommending alternate solutions.
· Ensure applications security and ability to interact with multiple API's.
· Working in close cooperation with clients, project manager, QA and developers to determine problems, testing methods and best practices to form a team effort in development.
· Resolved issues professionally and in timely manner.
· Worked in cooperate environment adapting to new and existing technologies. Managed small teams typically consisting of 4-5 people to deliver multiple client projects.
· Utilized strong interpersonal and communication skills to serve customer.

Professional Certifications

React – The complete guide 2023 (incl. React Router & Redux)- *online course - Udemy*

Education

BE/B.TECH | JUNE 2015 – APRIL 2019 | SATHYABAMA INSTITUTE OF SCIENCE AND TECHNOLOGY, CHENNAI
CGPA- 8.9/10

HIGHER SECONDARY| JUNE 2013 – APRIL 2015 | NARAYANA JR COLLEGE, KURNNOL
Percentage- 94%

Project Experience

· Was an active resource in developing customized, reusable component controls for a library by using MUI components.
· One of the resources in developing customized Gantt chat library.
· Using react-data-grid library, which was in typescript, converted it into JavaScript and made it more customized and added additional features.
· Used axios for APIs to load data from server.
· Designed reusable user interface components in react using JavaScript and ES6 features.
· Managed application state using react hooks.
· Used graphQL query language for APIs to load data from server.
· Worked closely with customers in tight feedback loop to validate the analytics product offering.
